

The **PEL 1100 litre Little Foot Bin Compactor** reduces weekly waste collections; saving money on waste disposal costs. The PEL1100BC will create space by reducing the number of bins required to store waste allowing for a smaller, cleaner and tidier waste storage area.

BENEFITS OF THE PEL1100 BIN COMPACTOR

- The PEL1100BC will compact up to 3 bins into 1, generating savings on waste disposal of up to 66%.
- The reduction of waste volume lowers the necessity for excessive waste collections. This contributes to reducing your overall carbon foot print.
- The two handed operational management systems makes this machine safe and easy to use.

Capacity	3:1
Colour	Green
Operating Noise	75dB (A)

WHAT OUR CUSTOMER HAVE SAID ABOUT THE PEL BIN COMPACTOR PRODUCT RANGE

‘Our site is very tight on space and we have no room for additional bins. The PEL Bin Compactors allow us to maximise the amount of waste we get into the bins’

- *Malcolm McConkey, McDonald’s*

‘We use the PEL Bin Compactor on both our general waste bins and our recycling bins. We have greatly reduced our waste costs and have reduced the number of bins in the yard which frees up space and tidies the place up. I would recommend the PEL Bin Compactor to any nursing home’

- *Peter Ward, Maintenance Manager, Silverstream group*
